Advanced Location Solution

Senior Living

The Inovonics Advanced Location solution delivers precise floor and room location in real time and on alarm, helping you to find residents, staff and essential equipment more quickly, which can lead to improved care delivery and staff efficiency.

inovonics®

Superior Technology for
Faster Response Times and Improved Efficiency

Real Time Location

Our Find Them feature allows caregivers and community staff to more easily locate a resident in real time[1] for medication administration, family visits or other time-sensitive contacts and allows for tracking of movement over longer periods of time.

Alarm Location

Our alarm location feature gets you to the right place[2] more quickly when a pendant alarm is generated.

Asset and Staff Tracking

- Asset tags allow you to accurately locate essential equipment in real time to improve efficiency and support loss prevention measures.
- Staff badges provide real time tracking capability to further improve response times and drive accountability

Precise and Timely Location Determination

- Enables faster response times
- Can help to ensure compliance with medication timeframes
- Allows for more efficient use of your staff
- Supports better resident outcomes and enhances satisfaction

Cloud Processing of Location Data[3]

- Provides data visibility across multiple properties to allow for continuous improvements to accuracy
- Leverages powerful cloud technologies to provide valuable data insights
- Enables new features and updates without the need for a site visit
- All Inovonics cloud solutions are HIPAA compliant

Light blinks yellow to notify residents and staff.

Required Hardware

EN7380
Senior Living Gateway
Provides cloud access for senior living applications including fall detection and advanced location. Runs in parallel with EchoStream® network coordinator and repeater infrastructure

EN5060
Locator
Leverages the EchoStream network to deliver advanced location information to the Inovonics cloud

Additional Hardware

ADVL1280
Asset Tag

ADVL1290
Staff Badge

ADVL2291
Staff Badge with RFID
Can be used with access control systems

Pendant Accessories

ACC680-BU
Magnetic alarm clearance card

ACC681-BU
Replacement neck lanyard

ACC682-BU
Replacement wristband

ACC684-BU
Replacement battery door

Disclaimers

[1] The Inovonics advanced location solution provides a last known location for any location-enabled device sold by Inovonics. Last known location updates approximate real time changes in position. Location update latency will vary based on device movement (or lack thereof), communication paths and network traffic.

[2] Location accuracy is a function of the quality of the installation, including thorough testing both upfront and on an ongoing basis. Please follow all recommended best practices as provided by Inovonics.

Disclosures

[3] The location information is an enhancement to basic functionality and can only be accessed through an active subscription to that service. Without an active subscription, alarm messages will be transmitted, but the advanced location information will not be provided. Additionally, the real time location features will not be available without an active subscription.
